The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

To seek long-term investment growth, mainly through growth of capital.

Investment Policy

The Fund mainly invests in equities of US companies of large market capitalisation. The Fund focuses on growth stocks (i.e. companies whose earnings are expected to grow faster than those of similar firms, and whose business growth and other characteristics may lead to an increase in stock price).

To a lesser extent, the Fund may invest in small or medium capitalisation companies and equity markets outside of the US.

Derivatives and techniques The Fund may extensively use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth.

Strategy In a bottom-up process, the investment manager uses Fundamental analysis to select companies with a strong competitive edge that appear to have above-average earnings and sustainable growth prospects.

SFDR category Article 8 (promotes environmental and/or social characteristics under EU regulations).

The investment manager aims to have a lower carbon intensity for the Fund's portfolio when compared to its primary benchmark. The investment manager uses proprietary and third party data using various ESG criteria to assess long-term opportunities and risks. The Fund favours companies with a high profile and excludes or restricts investments in certain industries that are harmful to the environment or society, such as thermal coal, weapons and tobacco.

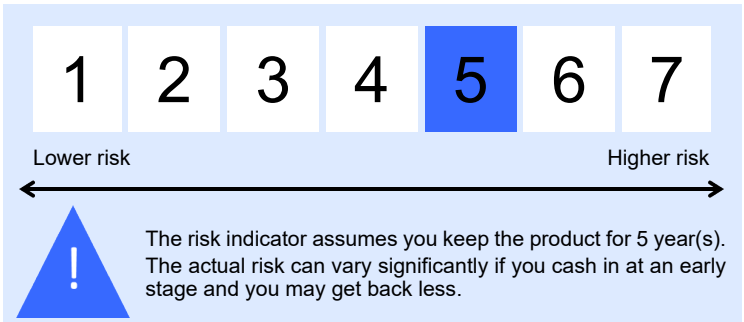
What are the risks and what could I get in return?

Risk Indicator



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Equity risk
- Concentration risk

For the other risks applicable to this Fund, please refer to the Primary Risks section of the Fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Market developments in the future are uncertain and cannot be accurately predicted.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000 is invested

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	693 USD	3 166 USD
Annual cost impact (*)	6.9%	3.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 20.7% before costs and 17.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
